

QUADPOD CAMP TABLE

Instructions:

1. Using four 6m poles build a quadpod.
2. Lash cross beams onto two sides at approx 40cm from the ground.
5. Lash two 4m poles as the table top base at approx 80cm from the ground
6. Round lash two sets of 6m poles together for the seats. The seats do not need to be added to the base cross pieces.
7. Add and tie down the table top / decking board on top of the 4m poles

Equipment:

- 2 x 4m poles
- 10 x 6m poles
- Table top/deck
- 16 x 6m lashing ropes
